SUMMARY

As a junior developer, I leverage a strong aptitude for rapid learning and a passion for crafting code with details. I also have a collaborative mindset and a motivating attitude that I am looking to bring to the table as an intern or a fresher.

EDUCATION

Port City University   Chittagong, Bangladesh
Bachelor of Science in Computer Science and Engineering

EXPERIENCE

Frontend Developer   December 2023 – Present
Cascade Events
- Developed a website for the business showcasing their projects and providing contact options
- Used React.js, Tailwind, DaisyUI and data-aos for frontend design

PROJECTS

— **PurrFect Adoption Hub** | *React, Express, MongoDB, Firebase, Axios, TanStack Query, Stripe Gateway*
- Users can add/edit pets or donation campaigns
- Users can contribute to donation campaigns and adopt pets added by other users
- Admin privileges enable admins to edit pets and donations added by all users and change user status to 'Admin'
- Added Stripe Payment Gateway for donation purposes
